

Summerschool Perth 2004 Beauty Contest

Friday, June 18

9:00 **Jullian Vivian** *The replication terminator protein - Asymmetric binding of DNA by a symmetrical protein.*

9:15 **Joyanne Kelly** *Proline residues in the hinge region of cyclin-dependent Kinase Subunit (Cks) proteins, their role in domain swapping.*

9:30 **Aaron Oakley** *Simulations of GST's*

9:40 **Mahjoobah Sidiqi** *Alpha-CP1 interaction with Androgen receptor mRNA*

10:00 **Corrine Porter** *Grb7SH2 domain binding to the non-phosphorylated cyclic peptide G18-NATE.*

10:10 **Grischa Meyer** *Using a non-planar bilayer to affect a membrane protein in simulation.*

10:30 Ben Powell *The melanins*

11:00 Break

11:30 Mark Abraham *Stability of structural motifs in the octapeptid from the disordered repeat region of prion protein.*

12:10: Klaus Schulten *Summary of Workshop*
