

## **NVIDIA GPU Technology Conference Recap - Day 2 by Rob Csongor**

NVIDIA has posted up another video that highlights the days happenings and is worth a quick watch if you want to know what is going on at the GPU Technology Conference. In the video below, Rob Csongor, VP of corporate marketing, describes what is going on!

Renowned computational biologist Klaus Schulten kicked off GTC's second day with a keynote focused on his team's pioneering work with the computational microscope. The Emerging Companies Summit came on his heels, as did presentations by The Foundry, Walt Disney Animation Studios and Harvard luminary Hanspeter Pfister.
